Who are CSE Solutions?

We are a trusted provider of comprehensive electronic solutions, specialising in Connectors, RF Microwave Components and RF Test Equipment and Cable and Product Assembly.

With over 40 years of industry experience, and a strong focus on quality, an Innovation partner and customer satisfaction.

Our commitment to finding a solution that fits your business need is second to none, which makes us a reliable partner for all your RF and connectivity solutions.

Our Core Services

Provision of High-Quality Components

We use our in-depth understanding of the RF market to source and supply components from globally recognised leaders in RF microwave technology. From amplifiers and filters to antennas and custom RF components, we provide products that meet the highest industry standards.

Technical Advice

Need guidance on RF technology or product selection? Our team of experts is here to provide you with in-depth technical advice to ensure you make the best decisions for your business. Whether you're working on a new design or troubleshooting an existing system, we're here to support you every step of the way.

RF Test Equipment

Ensure your systems are operating at peak performance with our wide range of RF test equipment. Our products allow for accurate testing, measurement, and analysis, giving you the tools you need to optimize and troubleshoot your RF solutions.

Bespoke Product and Cable Assembly

At Clarke and Severn Electronic Solutions we understand that one size doesn't fit all. That's why we offer custom-designed products and cable assemblies built to your exact specifications. Whether it's creating a specialised product or assembling cables to meet your unique needs, we ensure every solution is built with precision and care.

Why Choose Us?

Expertise: With over 40 years of experience in RF Microwave technology, we offer unparalleled knowledge and support.

Preferred Supplier: We only work with trusted global suppliers to ensure the products we provide meet the highest standards. In many cases we are the only authorised distribution partner in Australia.

Customisation: Our bespoke services in Product and Cable Assembly ensure that you get solutions tailored to your exact needs.

Quality Assurance: We are an ISO 900:2015 certified company since 2018, ensuring that all our processes and solutions adhere to the highest standards of quality and consistency. In addition, all production team are IPC-WHMA-A-620B certified, ensuring the highest standards of workmanship in every cable assembly and custom product we produce.

Customer-Centric: We're committed to providing excellent service and support, ensuring your satisfaction every step of the way.
