

SPECIALISTS IN RF COMMUNICATION SYSTEMS AND TECHNOLOGY.

Whatever your needs are, we offer tailored guidance to fulfill your specific requirements.

Capabilities

- In-depth knowledge of Specialist RF components.
- Local Adelaide Team consisting of 11 Engineers and 9 Assembly Technicians.
- Flexible lead times for assemblies, ranging from 1 day to 6 weeks.

Our Products

- Custom Coaxial Cable assemblies – up to 14 GHz, with custom labelling, conduit & phase matching. Lead times ranging from 1 day to 6 weeks.
- Custom RF harnesses for Vehicles in Harsh Environments.
- Custom Antenna Integration & Design – from 27 MHz up to 14 GHz.
- Precision and Test Cables up to 40GHz – Lead Times of 8 weeks.
- Coaxial Connectors, Adapters & Attenuators.
- 4G/5G/Wi-Fi/GPS Antennas.
- 4G/5G Modems and Wi-Fi Adapters.
- Collaborative product design with customers, ensuring tailored solutions are manufactured locally.

Quality Standards and Accreditations

- ISO 9001:2015 Accreditation
- Cable Assemblers with IPC620 certification.
- JOSCAR-AU Accreditation

Key Customers

- Silentium Defence – M38999 Cable Assemblies, Antenna Design & Manufacturing
- Solinnov – Antenna Design & Manufacturing
- Defence Companies with NDAs – custom cables and antenna design & manufacturing.
- Holden Special Vehicles – RF harnesses for vehicle communications and cameras.
- MaxMine – Custom RF harnesses for IoT applications at mine sites.

Key Partners

- Partners – Black Art Technologies
- Suppliers – Jye Bao, Huber + Suhner, Rojone, Rosenberger, Cambridge Technologies, Poynting Antennas, RF Industries, Teltonika.
